A train was expected momentarily from the front with 400 Federal prisoners on board. No firing had been heard from the south of Juarez up to 9 o'clock today, thus it appears that By Associated Press. the Rebel captors of the town after 30 hours fighting had flung back the Federal assault and would hold the border city without dispute.

Villa said he would pursue the Federals at once, but he is known to lack ammunition and will be forced He maintained that a sufficient Rebel tiary which saves him hanging. force is now beseiging Chihauhau City, to prevent the retreating Federals making their way into the state Capital. desert and 200 miles from its base. The total dead in the battle are guess work as no Americans have been over the field and the fog was hanging everywhere this morning...

By Associated Press.

El Paso, Texas, November 26 .-The American Red Cross has failed to respond to the appeals for aid made by the Rebel officials yesterday and an effort will be made to obtain money from other sources to enable the El Paso doctors and nurses to care for the wounded. So far, only men wounded in the head and body have been cared for. Those slightly wounded bandaged their hurts as best they could on the field. In several instances men were seen to cut bullets from their own flesh with dull pocket knives. The hotels in Juarez have been converted into hospitals and all the wounded are given cots or beds. Lack of bandages, medicine and proper food for the wounded is causing much suffering.

TAMPICO MENACED

By Associated Press. Mexico, City, November 26 .- The visit of John Lind to Tampico is regarded as indicating a more serious condition in that region than was generally thought here to be the case. Owing to the close censorship of Federal telegraphs, only meager reports are received at the Capital City of the condition of the Federals in the provinces. From reports along the railroad it seems that Tampico is the next place likely to be menaced by the Rebels.

By Associated Press.

Mexico City, November 26.-Gen. Auguilar said in his message to the Federal officer at Tuxpam Sunday that if the town was not delivered to him, the Rebels would attack it today. Preparations were made to withstand a possible Rebel attack. Fighting is reported in progress near Carneros, where a Federal troop train was dynamited yesterday by the Reb-

Thanksgiving

Tomorrow, observing a custom of long standing, the people of the United States will return thanks for the multitude of blessings they have enjoyed throughout this very extraordinary year, 1913.

The past year will live long in the memory of the present generation as a period during which the people of this nation have been called upon to endure many hardships.

They have experienced many unprecedented climatic extremes-this section of the country has, during the past calendar year, been visited by damaging rainfalls and floods which surpassed all previous disasters of that kind. Storms of great violence at seasons of the year when such occurrences do not usually come, have not been infrequent during the year.

In many sections of the nation crops of unusual promise of an abundant harvest during the spring and early summer, were later cut short or destroyed by drought of unusual severity

These disasters, however, we should bear in mind, have been confined to a territory so small, when taken in connection with the vast domain over which the American flag floats, as to be properly classified as local disturbances.

Taken altogether the nation has prospered abundantly, has added another year of plenty to the long list of years which have gone before.

In the realm of religion, politics and business, marked progress has been made. Many and radical have been the changes made in the laws of the land. Changes in matters governmental have been so marked as to be almost revolutionary, but, as a whole, these changes have been brought about of the list of youths who raised more without shedding one drop of human blood, with no disorder, with no serious questioning of the right of the majority to President A. Putnam Sandles of the peacefully decide those questions and with no noticeably detrimental effect on the marvelous business of the country.

Certainly the American people, in annually setting aside a day for Thanksgiving, are but acknowledging the existence of an obligation to the Giver of all things, of which even the most heedless must be cognizant.

Moral, mental and material progress and development has been permitted to the American people. Peace and plenty offered by the state commission are: Hogan. The state already has begun are on every hand, and while the people of all nations are Arnett Rose, Alger, 131.770 bushels condemnation proceedings in the making marked progress in an enlightened age, the American to the acre, \$50; Charles Hefflinger, courts of London to take possession people have progressed and prospered perhaps more than any Pandora, 131.122, \$30; Clyde Hynus,

While all human beings everywhere should set aside a day annually upon which public recognition of appreciation of Fay Haines, Coshocton, 123.673, \$10 the good things of life that are given to them, and if for nothing else for life itself, is made, it is with particular reverence | \$6; Leonard Sutton, Pandora, 122.857 | \$4; Brice Maural, Cumberland, 121. and genuine gratitude, that the American people should pause 275, \$3; Morris E. Webster, Coolville, long enough in the work of gathering the abundant harvest 120.285, \$2; Milton Leinbach, Vermilwith which they are blessed and give thanks to Him from whose hand and through whose wisdom and mercy it is all received.

In hundreds of thousands of American homes, families will gather around the same table again while feasting on the turkey that mother roasts and the pies that mother bakes, all will, in the happiness of the occasion, forget the high cost of living, the new tariff schedules, the proposed currency bill. The anxiety of every day life will be relieved, the fear of hard times will be forgotten, and in the realization of the abundance of blessings all will be truly thankful on Thanksgiving less effectively than in youth, the

In humbler homes the material feast may not be so abundant, but the spirit of the occasion will be the same, as it should. The proper observance of Thanksgiving day is good for a people and good for a nation.

Chicago, Ill., November 25.—"An immense sum" in telephone profits has been lost to telephone companies of this country by "destructive competition" by independent systems and the American Telephone and Telegraph company. The public has profited by the warfare and it was to put an end to this situation that a \$403, 000,000 merger was proposed by the American company backed by the Morgan financial powers. This was the substance of the testimony here today of Ernest B. Fisher, secretary of the Citizens' Telephone company of Grand Rapids, Mich., at the hearsuit against the American company.

SCOOP The Cub Reporter

Handsomely engraved cards went out Wednesday, announcing the marriage of Mr. Rollo W. Marchant and Miss Margaret Blosser in Celina, Tuesday, November 25th, 1913.

The bridegroom belongs to one of Fayette county's old and wealthy families, being the son of Mr. and Mrs. R. W. Marchant, and is himself an exceptionally fine fellow, owning and operating large farms near Plymouth and Milledgeville.

For the past two years, Mr. Marchant has traveled extensively, spending the winters in California, Panama and Florida, and it was while at winter resorts of Florida that acquaintance was made which led to the wedding ceremony.

The bride is connected with one of the well-known Frankfort families and is an attractive young woman, who has also had extensive advantages of education and travel.

Mr. and Mrs. Marchant will spend several weeks in the East, visiting Boston, New York, Washington, D. C and other cities. Upon their return they will reside at the Marchant homestead at Center Church for the winter, Mr. and Mrs. R. W. Marchant expecting to spend the win-

By Associated Press.

El Paso, Texas, November 26 .-The American Red Cross has failed to respond to the appeals for aid made by the Rebel officials yesterday and an effort will be made to obtain money from other sources to enable the El Paso doctors and nurses to care for the wounded. So far, only men wounded in the head and body have been cared for. Those slightly wounded bandaged their hurts as best they could on the field. In several instances men were seen to cut bullets from their own flesh with dull pocket knives. The hotels in Juarez have been converted into hospitals and all the wounded are given cots or beds. Lack of bandages, medicine and proper food for the wounded is causing much suffering.

## TAMPICO MENACED

By Associated Press. Mexico, City, November 26 .- The visit of John Lind to Tampico is regarded as indicating a more serious condition in that region than was generally thought here to be the case. Owing to the close censorship of Federal telegraphs, only meager reports are received at the Capital City of the condition of the Federals in the provinces. From reports along the railroad it seems that Tampico is the next place likely to be menaced by the Rebels.

## ATE CLAMS---DIED

Akron, O., Nov. 26 .- His fondness for clams resulted in the death of Charles Strobel, 59. Strobel attended a clambake at the Owis' club. After eating a great quantity of them he became suddenly ill, and died in the hospital an hour later of hemorrhage of the brain.

New York, Nov. 26.-Four people were killed and five others were injured when two automobiles collided in Pelham parkway. Two of the dead are women and their identity is unknown. One of the dead men is Leonard Cohn, connected with a firm of silk dealers. He was the owner and driver of one of the cars. The other man is said to be Dennis Mc-

The oldest account of a chimney place is in Venice, in 1347.

Washington, Nov. 26 .- Fear of serious complications in the oil districts of Mexico continues as the chief anxiety regarding immediate developments in Mexico. Officials admit there is grave danger of such extensive damage to American and British property in that region as might compel action by the United States.

Admiral Fletcher is at Tampico, and it is expected that some sort of a report will be received from him soon. John Lind, the president's envoy, is with Admiral Fletcher, and will join him in his investigation into the situation. Lind's departure from Vera Cruz was with the knowledge and consent of the state department. Administration officials are earnest-

ly hopeful that Admiral Fletcher will find the situation at Tampico and Tuxpan, which he will also visit. much less threatening than it has been described.

The pressure in favor of the landing of American forces to give physical protection to the oil properties continues from interested sources, that he will respect the properties of Americans and other foreigners, but at the same time there is no doubt of the anxiety which the situation is causing in Washington.

The state department is recommending in most instances that Americans pay the money demanded Honk Kong, China, November 26. by the rebels, though under protest, 30 Chinese were drowned in the har- and that a receipt be taken. The rebels are demanding cash in large sums as "taxes" due from the companies. The federals, on the other hand, are collecting an export tax on all oil sent out of the country, and orders have been issued to increase the tax from 20 cents to \$1 a ton.

Inquiries made by the British consul at Tuxpan were largely responsible for the sending of Admiral Fletcher to the oil coast to supplement the work of Admiral Bousch, it was disclosed here.

### Thanksgiving

Tomorrow, observing a custom of long standing, the people of the United States will return thanks for the multitude of blessings they have enjoyed throughout this very extraordinary year, 1913.

The past year will live long in the memory of the present generation as a period during which the people of this nation have been called upon to endure many hardships.

They have experienced many unprecedented climatic extremes-this section of the country has, during the past calendar year, been visited by damaging rainfalls and floods which surpassed all previous disasters of that kind. Storms of great violence at seasons of the year when such occurrences do not usually come, have not been infrequent during the year.

In many sections of the nation crops of unusual promise of an abundant harvest during the spring and early summer, were later cut short or destroyed by drought of unusual se-

These disasters, however, we should bear in mind, have been confined to a territory so small, when taken in connection been confined to a territory so small, which takes with the vast domain over which the American flag floats, as to

Taken altogether the nation has prospered abundantly, has added another year of plenty to the long list of years which have gone before.

In the realm of religion, politics and business, marked progress has been made. Many and radical have been the changes made in the laws of the land. Changes in matters governmental have been so marked as to be almost revolutionary, but, as a whole, these changes have been brought about without shedding one drop of human blood, with no disorder, with no serious questioning of the right of the majority to President A. Putnam Sandles of the peacefully decide those questions and with no noticeably state agricultural commission, who worth farm was because it contained detrimental effect on the marvelous business of the country.

Certainly the American people, in annually setting aside of special trip prizes, offered by cona day for Thanksgiving, are but acknowledging the existence of an obligation to the Giver of all things, of which even the are to go on the annual corn excurmost heedless must be cognizant.

Moral, mental and material progress and development has been permitted to the American people. Peace and plenty offered by the state commission are:

are on every hand, and while the people of all nations are Arnett Rose, Alger, 131.770 bushels condemnation proceedings in the making marked progress in an enlightened age, the American people have progressed and prospered perhaps more than any Pandora, 131.122, \$30; Clyde Hynus,

While all human beings everywhere should set aside a day annually upon which public recognition of appreciation of Fay Haines, Coshocton, 123.673, \$10; the good things of life that are given to them, and if for nothing else for life itself, is made, it is with particular reverence and genuine gratitude, that the American people should pause 275, \$3; Morris E. Webster, Coolville, long enough in the work of gathering the abundant harvest 120.285, \$2; Milton Leinbach, Vermilwith which they are blessed and give thanks to Him from whose hand and through whose wisdom and mercy it is all

received. In hundreds of thousands of American homes, families will gather around the same table again while feasting on the turkey that mother roasts and the pies that mother bakes, all will, in the happiness of the occasion, forget the high cost of living, the new tariff schedules, the proposed currency bill. The anxiety of every day life will be relieved, the fear of hard times will be forgotten, and in the realization of the abundance of blessings all will be truly thankful on Thanksgiving

In humbler homes the material feast may not be so abundant, but the spirit of the occasion will be the same, as it should. The proper observance of Thanksgiving day is good for a people and good for a nation.

swung full. The clear skies over it were following the day;

The clear stream, swelling from a wide brown pool,

Dropt down in silver to the silence of

All along the headlands there hardly was a sighing;

The waves lay hushed, and the wind had given o'er. Folded into gentleness, the vales

low-lying And the rough, sad moorland were one forevermore.

Faintly down the valley came the notes of a song;

A young girl singing to the broad stones gray,

And the bracken in the meadow, as she lightly went along,

The words of her ballad were scattered on the way; Evening only gathered up the echo-

John H. Smith, president of the Smith Brothers Hardware company of Columbus, O., declared that "If there is any agreement to fix prices it certainly has been violated for the last 10 years." He declared that the profit to the jobber on nails is often not more than 21/2 cents a keg, and said that his company handled 500 kegs of nails an hour.

Other witnesses who testified that steel products are sold at varying prices and that there is keen competition were Albert E. Converse, president of the H. C. Tack company of Cleveland; Samuel D. MISS FLORENCE USTICK, Society E ditor

Handsomely engraved cards went out Wednesday, announcing the marriage of Mr. Rollo W. Marchant and Miss Margaret Blosser in Celina, Tuesday, November 25th, 1913.

The bridegroom belongs to one of Fayette county's old and wealthy families, being the son of Mr. and Mrs. R. W. Marchant, and is himself an exceptionally fine fellow, owning and operating large farms near Plymouth and Milledgeville.

For the past two years, Mr. Marchant has traveled extensively, spending the winters in California, Panama and Florida, and it was while at winter resorts of Florida that acquaintance was made which led to the wedding ceremony.

The bride is connected with one of the well-known Frankfort families and is an attractive young woman, who has also had extensive advantages of education and travel

Mr. and Mrs. Marchant will spend several weeks in the East, visiting Boston, New York, Washington, D. C and other cities. Upon their return they will reside at the Marchant homestead at Center Church for the winter, Mr. and Mrs. R. W. Marchant expecting to spend the win-

The Elks have issued invitations for the first open house in their new quarters, on Wednesday evening, December third, in charge of the social session committee, L. G. Spragg and A. J. Burgett. Cards will furnish entertainment from 8 to 10 and dancing from 10 to 12.

Mr. and Mrs Frank M. Kennedy will entertain at a family Thanksgiving dinner Mr. and Mrs. Will Haigler, daughters, Misses Nellie and Canvas, Mr. Albert Haigler, of Jeffersonville, Dr. and Mrs. F. E. Todhunter and children.

Horstman's orchestra will furnish the music and an elaborate course supper will be served. The grand march forms promptly at 8:45.

The Browning club held the regular meeting last evening, president, Mrs. Kerr in chair.

The Department of Social Science and Philanthropy, chairman, Miss Edith Hamm, had a full program.

Miss Ella Hess gave the opening paper on "The Great Fruit and Bread Lands of South America." Colombia first claimed attention, that fertile country, but little known and largely because of lack of transportation sets it to one side. She treated of its conditions in the business world; cattle raising profitable to extent of paying 25 per cent; fair breeds of horses. Corn and maize and wheat flour imported. The big thing for especially the poor classes is the banana which is to them what the potato is to the Irishman and furnishes to the acre more food than any other plant.

The Day Before Thanksgiving

OU probably have a good many more things to be thankful for than you realize. No matter how fortunately you are situated; no matter how un fortunate you may feel yourself to be; things are really better than you think

That's one of the reasons for having a Thanksgiving Day, a harvest feast, a general gathering of families and friends, a season of festivity

We have a good deal to be thankful for in our business; we have done well in The society event of the week will it---as well, we hope, for our customers as for ourselves. That's the idea of this business; to make every transaction profitable for you as much as for us.

When we sell a man one of our

Suits or Overcoats, for example, we know that our customer is getting big value for his money; more value 188than any other clothes will give him; better style, better quality in all-wool fabrics, better tailoring, better parts special plateau of South America service in wear, than he can find in any other way, or in any other store.

We mean to have that true of everything else we sell, from the smallest to the largest thing.

The Suits and Overcoats that we sell at \$25 are the best examples of this value-giving we have ever known. The man who gets one of those Suits or Gvercoats gets more for his \$25 than he'll ever get for the same money anywhere in clothes. We have others from \$15 up.
